

GLOBAL CATASTROPHIC BIOLOGICAL RISK: CONSIDERING LOW PROBABILITY, HIGH CONSEQUENCE EVENTS

DATE Wednesday, December 6th 2017

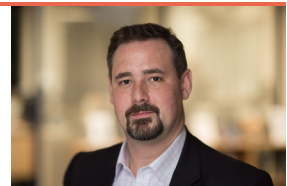

TIME 1 pm - 3 pm

LOCATION Room XXIV - Palais des Nations
Geneva, Switzerland

Chairing the session

Piers Millett, Ph.D.

Senior Research Fellow, Future of Humanity Institute, University of Oxford

Existential risk and cost-effective biosecurity

Andrew Snyder-Beattie

Director of Research, Future of Humanity Institute, University of Oxford

A 'risk pipeline' for predicting the most dangerous actors

Anders Sandberg, Ph.D.

Senior Research Fellow, Future of Humanity Institute, University of Oxford

A transatlantic perspective on 20 emerging issues in biological engineering

Lalitha Sundaram, Ph.D.

Research Associate, Cambridge Centre for the Study of Existential Risk

Q&A
